USER STORIES

Role	User Stories	Acceptance Criteria
Student	Story 1 As a student, I want to log in using my student number and password I create, so that I can securely access my clinical schedule and information.	Login requires a valid student number and password. Passwords must be created by the student on first login. Login should fail with an error if credentials are incorrect.
	Story 2 As a student, I want to choose my preferred clinical facility, so that I can influence where I am placed.	Students can view a list of available facilities. Students can select one or more preferences. Selection is saved to their profile for admin consideration.
	Story 3 As a student, I want to view the facility where I have been placed, so that I know where to attend clinical practice.	Student dashboard shows allocated facility. Facility details (name, type, contact info, address) are displayed
	Story 4 As a student, I want to record my attendance at my clinical facility, so that my hours are tracked accurately.	Students can check in and check out at the facility. Attendance records are time-stamped. Students can view their attendance history.
	Story 5 As a student, I want to upload documents such as clinical hours or attendance sheets, so that my records are complete.	Upload supports PDF and image files. Uploaded documents are linked to the student's profile. Admin can review uploaded documents.
Clinical Staff	Story 6 As a clinical mentor, I want to log in to the system, so that I	Only authorized mentors can log in. Mentor profile is linked to assigned year level or group of students.

Admin		can access student records I supervise.	
	Story 7	As a clinical mentor, I want to view a list of the students assigned to me, so that I can track their progress.	Mentor dashboard lists all students allocated to them. Student details include name, year, facility, and attendance records.
	Story 8	As a clinical mentor, I want to approve or verify student attendance records, so that hours are validated correctly.	Mentors can view submitted attendance logs. Mentors can approve, reject, or comment on logs. Approved records update student's total clinical hours.
	Story 9	As an admin, I want to log in securely, so that I can manage placements and student data.	Only authorized admin accounts can access admin panel. Admins have higher privileges than students and mentors.
	Story 10	As an admin, I want to assign students to clinical facilities, so that placement is fair and meets requirements.	Admin can view all student preferences. Admin can view facility availability. Admin can confirm and save placement allocations
	Story 11	As an admin, I want to track students' clinical hours, so that I can ensure they meet program requirements.	Admin dashboard shows hours logged by each student. System highlights deficits in hours.
	Story 12	As an admin, I want to generate reports on student performance, so that compliance and progress can be monitored.	Reports include attendance, non-compliance, deficit hours, placements, and incidents. Reports can be exported to PDF or Excel.
	Story 13	As an admin, I want to manage facility information, so that records are up to date.	Admin can add, edit, or delete facility details. Facility info includes name, type, address, contact person, and phone number.
